

# Life without my God

**6-**                    **#5dim**                    **5add6**                    **2M7/b5**  
What if I got it wrong What if heaven was here and was all along  
Am I wasting my time? Is the joy that eludes me meant to be mine  
**6-**                    **#5dim**                    **2-**                    **5**  
It's a sobering thought, but                    life without my God

<b>1</b>	<b>1#dim</b>	
Is no life at all,	Nothing at all	
<b>2m7</b>	<b>5</b>	
My garden grows at the foot of a throne		
	<b>1</b>	<b>1#dim</b>
When I sing through the smiles,	Sing through the hard times	
<b>2m7</b>	<b>5</b>	
Tell of the wonders	Of this love of mine	

**6-**                    **#5dim**                    **5add6**                    **2M7/b5**  
Empty inside,                    I lowered my head and cried and cried  
I'm starting to see,                    It's hard to surrender what I never received  
**6-**                    **#5dim**                    **2-**                    **5**  
It's Fundamentally flawed,                    life without my God

**6-**                    **#5dim**                    **5add6**                    **2M7/b5**  
The Kingdom is near Tell strangers and loved ones it's soon to appear,  
like a master Or a thief in the night That comes without warning, an  
army behind  
**6-**                    **#5dim**                    **2-**                    **5**  
Let the broken Join and applaud, "Life without our God..."
